

ABOUT US

-Mission Statement

To provide a loving, compassionate, and safe environment for children with Down Syndrome that will foster their social interactions, enhance their self-esteem, and build character.

-Vision Statement

Building the best world possible for children with Down Syndrome.

-Statement of Needs

Victoria's Place will operate as a program designed exclusively for children with Down Syndrome between the ages of 3 to 12 years old. As a mother, one of my greatest concerns was witnessing my daughter grow up isolated from other children with Down Syndrome. Therefore, it was critically important for me to explore a wide range of resources that would connect her with her peers so that she would be able to make meaningful and lasting friendships. I also wanted other parents with children with Down Syndrome to feel comfortable knowing that they could send their children to a place where they could interact with their peers in a loving and compassionate environment.
